EDUCATION

BTech (IT)
Indus University
2022 - 2026

SKILLS

- Python
- HTML, CSS, JavaScript
- React JS, MongoDB
- Git, GitHub
- Streamlit
- AI/ML basics

Divyang T. Solanki

Python & Ai-ML

About Me

I am an aspiring developer with hands-on experience in Python and AI/ML, where I have worked on building basic machine learning models and intelligent systems. I also have experience developing web applications, including both frontend and backend, with the help of AI tools. I enjoy solving real-world problems and continuously improving my technical skills.

INTERNSHIP EXPERIENCE

Jan 2026 - present

Akash Techno Lab

Internship

I am a Python and AI/ML trainee with a strong foundation in both basic and advanced Python. I have learned key libraries such as NumPy, Pandas, and Matplotlib, and gained experience in data visualization. I am currently learning AI/ML concepts and applying them in small projects. I also have hands-on experience working with APIs and tools like Postman. I enjoy solving real-world problems and continuously improving my technical skills.

Project

Zoom Clone

- Built real-time video calling app using Agora API & Socket.io
- Implemented features like room joining, audio/video controls
- Tech: React, Node.js, Express

Streamlit Applications

I have developed multiple web applications using Streamlit, including a currency converter, fake e-commerce platform, news app, calculator, and weather app. Through these projects, I gained hands-on experience in building interactive user interfaces, working with APIs, and handling real-time data. These projects helped me strengthen my Python skills and understand how to create simple yet practical applications.
